## SORB®XT Conductive Barrel

Article	SORB®XT CB30
Article No.	100608
Dimensions (mm)	Ø 316 x H 426
Weight	5,20 Kg
Capacity	26 L

### Product Information:

#### Productinformation

- wide neck drum – 26 litres
- made of electrostatically conductive plastic
- protects sensitive components against charging and electrostatic discharge
- the barrel is air, vapor and liquid tight due to the hermetically sealed screw cap.
- filled with 100% natural SORB®XT natural fibre
- equipped with an ESD-dustpan set

#### Storage

- store dry and with low humidity to avoid mold

#### Properties

- antistatic
- two side handles
- extra large filling opening (Ø 204 mm)
- surface resistance: <10 Ohm
- air, vapor and liquid tight
- maximum filling temperature 80°C
- sealable
- UN certified for packing groups I, II and III
